

Sheljin S G

Full Stack Software Engineer - Node.js - Angular - React - FinTech SaaS

+91-9787631406 sheljin2003sgs@gmail.com linkedin.com/in/your-profile Chennai, India

SUMMARY

Full Stack Software Engineer with over 1 year of professional experience delivering enterprise-grade FinTech Software-as-a-Service (SaaS) platforms for 10+ enterprise clients. Shipped 20+ RESTful Application Programming Interfaces (APIs), engineered OAuth 2.0 and JSON Web Token (JWT) authentication systems, and managed Continuous Integration and Continuous Delivery (CI/CD) pipelines using Docker, Linux, and Nginx. Specialized in Angular, React, Node.js, Express.js, MongoDB, MySQL, and microservices architecture. Consistently delivered features ahead of schedule within Agile and Scrum teams across the full Software Development Lifecycle (SDLC).

SKILLS

Frontend Development: Angular, React, JavaScript (ES6+), TypeScript, HTML5, CSS3, Responsive Web Design, Mobile-First Design

Backend Development: Node.js, Express.js, Spring Boot, RESTful API Design, Microservices Architecture, Java, Python

Databases: MongoDB, MySQL, Query Optimization, Multi-Tenant Database Design

DevOps and Tools: Git, Docker, CI/CD Pipelines, Linux, Nginx, SonarQube, Agile, Scrum

Authentication and Security: Keycloak, JWT (JSON Web Token), OAuth 2.0, Role-Based Access Control (RBAC)

WORK EXPERIENCE

Junior Member of Technical Staff

Ezee.ai - Remote, India

April 2025 - Present

- Spearheaded delivery of 8+ end-to-end product features per quarter for a FinTech SaaS platform using Angular and Node.js with Express.js, cutting time-to-market by 20%.
- Optimized 5 high-traffic Angular modules by refactoring rendering logic and lazy loading, slashing average page load time by 30% and boosting user retention.
- Designed microservices architecture for distributed systems serving 10+ enterprise clients, reducing inter-service latency by 25% and improving fault tolerance.
- Delivered sprint goals 15% ahead of deadline on average by partnering with 6 product managers and designers across the full Software Development Lifecycle (SDLC).
- Reviewed 50+ pull requests monthly, enforcing standards that cut post-deployment defects by 35% across Angular frontend and Node.js backend codebases.
- Executed 10+ zero-downtime production deployments by managing CI/CD pipelines with Docker, Linux, and Git-based release workflows.

Member of Technical Staff - Intern

Ezee.ai - Remote, India

March 2024 - March 2025

- Developed 6 responsive frontend modules in Angular and React and 15+ backend services in Node.js, Express.js, and MongoDB, cutting average backend response time by 20%.
- Secured data for 500+ enterprise users by implementing Keycloak and JWT authentication with Role-Based Access Control (RBAC) covering 4 distinct user roles.
- Integrated 3 third-party APIs and managed 12+ CI/CD production deployments, sustaining 99.9% platform uptime throughout the engagement.
- Eliminated 40% of open bugs within 3 months through systematic root cause analysis, targeted performance profiling, and structured debugging sessions.
- Raised code quality rating from C to A across 2 repositories by resolving 60+ SonarQube-flagged code smells and security vulnerabilities.
- Contributed to 52 consecutive Agile and Scrum sprints, participating in planning sessions, daily standups, code reviews, and retrospectives.

PROJECTS

School Management System

Tech: Node.js, Express.js, Angular, MongoDB, MySQL, JWT, RBAC

- Architected a multi-tenant SaaS platform supporting 4 user portals (Admin, Teacher, Student, and Parent) with complete Role-Based Access Control (RBAC) and tenant-level data isolation.
- Developed 20+ RESTful APIs covering attendance, grading, scheduling, and notifications, reducing manual administrative workload by 60% for school staff.
- Integrated MongoDB and MySQL with optimized query design, reducing average API response time by 45% and tripling system throughput under concurrent load.
- Secured all endpoints with JSON Web Token (JWT) authentication, achieving zero unauthorized data access incidents after launch.

Construction Company Website

Tech: Angular, Node.js, Express.js, REST API, Nginx, SSL

- Launched a fully responsive corporate website in Angular with mobile-first design, achieving 100% cross-device compatibility verified across 5 major browsers.
- Built 5 RESTful APIs with automated server-side email delivery, tripling lead capture rate compared to the previous static contact form.
- Configured Nginx reverse proxy with SSL termination and response caching, reducing page load time by 35% and enforcing HTTPS security across all traffic.

EDUCATION

Bachelor of Technology (B.Tech) - Computer Science and Engineering

Dr. N.G.P Institute of Technology - Coimbatore, India

2020 - 2024

- Cumulative Grade Point Average (CGPA): 8.0 out of 10.0
